Introduction

Perhaps you have spent a lot of time in the cryptocurrency space and now feel that you have the knowledge necessary to choose a new project. That's great! However, if you are not sure that our project is worthy of your attention, that this technical documentation will provide some help. In it you will find step-by-step instructions on buying NFT, 佩佩G token and much more.

Story

Meme token Son Popu (佩佩G) created on the BSC network, which is a parody of the Dragon Ball manga, in particular on Son Goku + PEPE. Son Popu was sent to Earth to find new friends and go to the moon with them! CZ Binance taught him martial arts and gave him a four-star Dragon Ball.

Detailed analysis

Changpeng Zhao

Changpeng Zhao (Chinese: 赵长鹏; pinyin: Zhào Chángpéng), commonly known as CZ, is a Chinese-born Canadian businessman, investor, and software engineer. Zhao is the co-founder and CEO of Binance, the world's largest cryptocurrency exchange by trading volume as of July 2022.

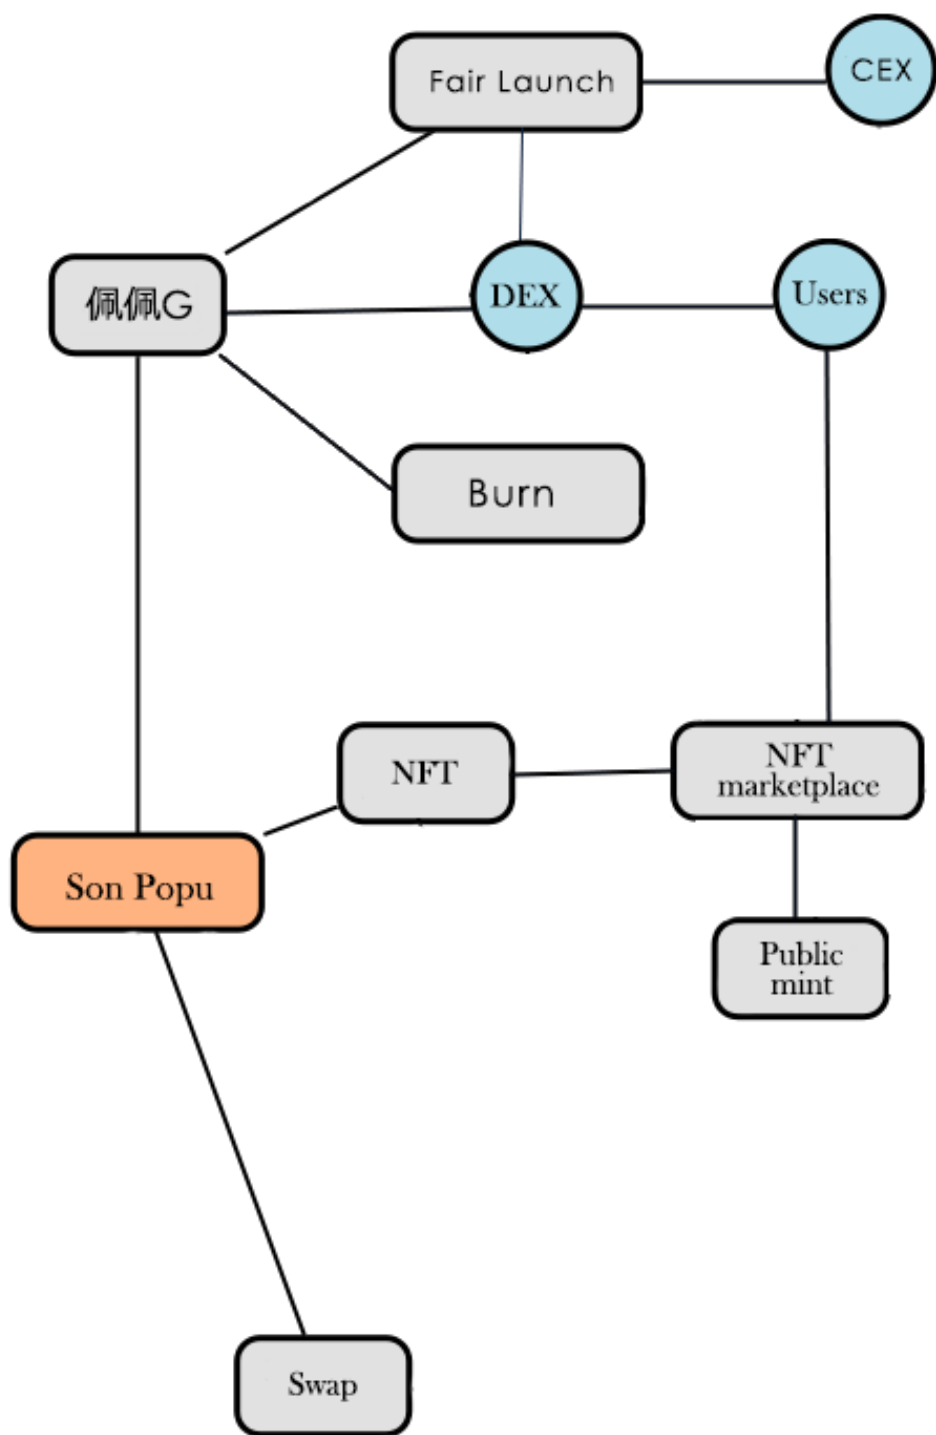

According to Bloomberg Billionaires Index, Zhao was ranked the 136th-richest person in the world, with a net worth estimated at \$13.1 billion as of December 2022.

Dragon Ball

Dragon Ball is originally a manga created by Akira Toriyama. It was published in the Japanese magazine Shonen Jump from 1984 to 1995. The official sequel to the manga is Dragon Ball: Super, published since 2015. The franchise has a bunch of movies and games. It is considered one of the most popular and well-known works in Japan and the USA. Dragon Ball had a direct and considerable influence on the genre of shounen.

What is the BSC network?

Launched by the cryptocurrency exchange Binance, BNB Smart Chain (BSC), previously Binance Smart Chain, is a blockchain network. It supports smart contracts and decentralized applications (DApps). BSC runs alongside the BNB Chain, previously Binance Chain.

Executive Team and Roles

Lin Guanyu
Developer

We are responsible for designing, coding and maintaining the technical infrastructure of the Son Popu project. Our main tasks include writing code and creating and managing smart contracts, developing blockchain protocols, and ensuring the security and stability of the platform. We are also responsible for integration with external systems and APIs, conducting code checks and troubleshooting any technical problems that arise.

Ding Yaoting
Project manager

We participate in planning, organizing and performing various tasks to ensure the successful completion of the project. The main tasks include defining project objectives, creating and managing project implementation schedules, allocating resources, managing stakeholders, and monitoring progress. We facilitate communication and collaboration between team members and ensure that the project is completed on time and within budget.

Zhong Gan

SMM Manager

Lina Xiang
